University of Illinois at Urbana-Champaign’s Guidelines for Implementing the University-Wide Background Check Policy

The “University of Illinois Background Check Policy” ("the Policy") was approved by the Board of Trustees in September 2015. The campus has established these implementation guidelines to promote a safe and secure environment for the campus community.

Objectives

- Create a campus background check program that strikes an appropriate balance among our important institutional interests and principles, including ensuring a safe campus community and a fair and non-discriminatory hiring process.

- Embody a process that confirms the campus commitment that a conviction history is NOT an automatic bar to employment and requires an individualized assessment.
  
  The individualized assessment of the job responsibilities and conviction history will take into account such factors as the nature and seriousness of the underlying offense/conduct, the relatedness of the offense/conduct to the position being sought, the length of time that has elapsed since the conviction, end of the sentence, offense/conduct, and demonstrated rehabilitative efforts.

- Establish processes to gather and analyze criminal background check information using methods that are fair and consistent.

Effective Date

The University Background Check Policy is effective October 5, 2015. Selected candidates for searches and hiring activity in progress prior to October 5, 2015, in which the search postings did not contain the background check requirement disclosure, are not subject to the background check requirement. However, all hiring activity initiated on or after October 5, 2015, is subject to the background check policy.
Applicability

The University Background Check policy applies to both new university employees and certain current University employees as outlined below.

**New University Employee**

For the following employment categories, a criminal background check must be conducted after the selected candidate accepts a written contingent offer but prior to beginning employment:

- Faculty
- Specialized Faculty, including Postdoctoral Research Associates
- Other academic titles (when paid) such as: Visiting Scholars, Medical and Veterinary Medical Residents
- Academic Professionals
- Civil Service
- Extra Help
- Academic Hourly

Former employees, including those who retired are considered a new University employee the first time they accept employment after their separation.

A background check will also be conducted with respect to all individuals (including University personnel, graduate and undergraduate employees, fellow, volunteers, and contractors) who are subject to the University of Illinois Protection of Minors Policy or who may be assigned to a security sensitive position.

In very limited circumstances, units may request approval to make a conditional hire, allowing a new university employee to begin work prior to completion of the background check. Such requests must be submitted to and approved by Illinois Human Resources prior to the conditional hire.

**Current University Employee**

A criminal background check will be required for a current employee in the following circumstances:

1. **Security Sensitive Positions:**

A criminal background check must be In accordance with the Illinois Campus Security Act (PA-88629), security sensitive positions are determined by Illinois Human Resources (Academic Human Resources and Staff Human Resources) and the Office of Student Financial Aid - Student Employment.
Security sensitive positions include those that require employees to be entrusted with: the care or daily close contact with children (included under the Protection of Minors Policy), cash handling, firearms, controlled substances or direct patient care. This list is not exhaustive, and a unit should seek guidance/approval from Academic Human Resources, Staff Human Resources, or the Office of Student Financial Aid - Student Employment, depending on the category of employment.

2. Transition to Faculty, Academic Professional, Medical Resident or Civil Service Position from a Student, Temporary/Hourly or Unpaid Position:

A standard criminal background check must be conducted before a current employee transitions from an undergraduate or graduate, temporary hourly (Extra Help or Academic Hourly) or unpaid affiliate position to a Faculty, Academic Professional, Medical Resident, or Civil Service position.

Criminal Background Checks

A standard background check will be conducted for all candidates, including international candidates.

Standard Criminal Background Check Components

- National, state, and county criminal conviction records
- National and State Sex Offender Registries (SOR)
- Social Security Number verification
- All criminal background checks are conducted in accordance with the Fair Credit Reporting Act (FCRA)

Notification to Candidates

Candidates will be notified of the background check requirement through a number of venues such as general information on campus websites and specifically through:

1. Notice in Job Advertisement

   The following statement must be included in each job notice (print and online): “The University of Illinois conducts criminal background checks on all job candidates upon acceptance of a contingent offer.”

2. Offer Letter

   Offer letters must contain language indicating the offer is contingent upon successful completion of the background check process.

3. Consent and Disclosure Requirement
Candidates will need to provide consent in order to authorize the vendor to conduct the background check. This secure online process will include disclosure notification and express authorization for the components of the background check.

**Cost**

The cost of the background check will be covered by the hiring unit. Illinois Human Resources will notify units of costs and manage the payment processes.

**Hiring Risk Assessment Review Committee**

Criminal background checks, except those for undergraduate student employees, that return a conviction history report will be reviewed by the campus Hiring Risk Assessment Review Committee (HRARC). The HRARC will be comprised of representatives from Academic Human Resources, Staff Human Resources, and University law enforcement. Additionally, when faculty and specialized faculty candidate conviction history reports are being reviewed, two faculty members at the rank of Professor will participate in the reviews. University Legal Counsel serves the HRARC in an advisory capacity.

For any given review of a faculty or specialized faculty candidate, two faculty members will be chosen to participate, taking into consideration availability and disciplinary expertise.

After consultation with the Academic Senate and the Council of Deans, the Provost Office will appoint up to eight faculty members to serve on the HRARC.

Illinois Human Resources has the responsibility to convene the Hiring Risk Assessment Review Committee and is responsible for ensuring all members are provided the appropriate training relevant to confidentiality of information, relevant job nexus information, and the University’s commitment to diversity and equal opportunity, recognizing that a criminal conviction history is not an automatic bar to employment. Illinois Human Resources is responsible for the confidential maintenance of all HRARC information and records.

The Office of Student Financial Aid manages the review and record maintenance of any criminal conviction background checks for undergraduate student employees. Additionally, the Office of Student Financial Aid convenes the Background Check Review Committee for Students (BCRCS) when a conviction review is needed for an undergraduate student employee being considered for a security sensitive position. The BCRCS consists of representatives from Student Affairs, Academic Affairs, and University law enforcement.

**Conviction History Review**

The candidate’s name will be redacted from the criminal conviction reports and candidate supplied supplemental information provided by the candidate. The HRARC makes an individualized assessment of the conviction history and the job responsibilities in order to determine if the criminal conviction
poses a level of risk that might preclude clearing the candidate for employment in the position, considering, but not limited to:

i. The nature and seriousness of the underlying offense/conduct
ii. the relatedness of the offense/conduct to the position being sought
iii. the length of time that has elapsed since the conviction, end of sentence, and the offense/conduct, and
iv. demonstrated rehabilitative efforts.

HRARC advises on assessment of the nexus between the criminal conviction and the position.

**Decision Making Authority**

HRARC recommendations for faculty and specialized faculty candidates are provided to the Provost. After consulting with the relevant Dean regarding the impact of conviction history on the hiring decision, the Provost will make the decision on whether the candidate has cleared the criminal background check.

HRARC recommendations for all other employment categories except undergraduate student employees are provided to the Associate Provost for Human Resources or her/his designee for final decision of employment eligibility. After the Associate Provost for Human Resources has consulted with appropriate University officials as needed, the Associate Provost for Human Resources will make the decision on whether the candidate has cleared the criminal background check.

Final decisions regarding employment eligibility for Undergraduate Student Employees are made by the Director of the Office of Student Financial Aid and the Senior Assistant Director for Student Employment.

**Record Retention**

Illinois Human Resources is responsible for all records related to criminal background checks. All conviction history information is retained centrally with Illinois Human Resources, in a secure manner, and separate from personnel files. Only Illinois Human Resources staff who have criminal background check process responsibilities will have access to the records. Records are kept in accordance with the Illinois Record Retention Act.
Process for Conducting a Criminal Background Check

1. Upon selection of the preferred candidate, the hiring unit extends a written offer to candidate, clearly stating the offer is contingent upon the candidate successfully completing the background check process. All other contingencies, such as University of Illinois Board of Trustees approval must also be reflected in the offer letter.

2. Candidate accepts the contingent offer.

3. Hiring unit submits a criminal background check request to Illinois Human Resources via the HireTouch System.

4. Illinois Human Resources submits the criminal background check order to the third party vendor, GIS, for all new University employees and current employees who are subject to the background check requirement as noted in the Applicability Section.

5. GIS emails candidate a link to a secure, online authorization portal.
   a. Email will be sent from UniversityofIllinoisHR@geninfo.com.
   b. GIS provides candidates with all disclosures, authorization and release forms in accordance with federal regulations.

6. Candidate provides consent and authorization for GIS to conduct the criminal record search using the online portal, as well as providing information required to conduct the search. Candidates are asked to self-disclose any criminal convictions to the third-party vendor.

7. GIS conducts the criminal background check after receiving candidate consent and authorization.

8. GIS notifies Illinois HR of results.

9. Illinois HR reviews the criminal background check results.

10. When the criminal background check returns no conviction history, Illinois Human Resources contacts the unit, authorizing continuation of the hiring process. Illinois Human Resources also notifies the candidate of the successful completion of the criminal background check process.

11. When the criminal background check returns a criminal conviction history report:
   a. Illinois HR contacts the candidate and provides a copy of the GIS report via U.S. Postal Mail and upon candidate’s request, via email. Candidates are given the opportunity to speak directly with an Illinois HR staff member serving as the Case Coordinator to seek clarification or provide additional information. The candidate is informed of the process to correct any inaccuracies in the report and the processes by which the candidate can provide any additional information she/he wishes concerning information contained in the report. Candidates have ten (10) days from the date of the letter from Illinois Human Resources to respond.
b. If the candidate communicates to the Illinois HR Case Coordinator that the report incorrectly indicates criminal convictions and the candidate has contacted GIS to correct the report, a corrected report provided by GIS is given to the Hiring Risk Assessment Review Committee (HRARC) and is considered as part of the background check process.

c. If the candidate demonstrates that there is, in fact, no criminal conviction history to be reviewed (e.g. a court issued document regarding expungement of records), Illinois Human Resources, after consultation with University Legal counsel, can authorize continuation of the hiring process without an HRARC review.

d. If the candidate does not demonstrate that the report is incorrect but submits additional information, the information provided by the candidate and the GIS report is provided to the HRARC.

e. After receiving any supplemental information the candidate wishes to have considered, Illinois Human Resources convenes the HRARC to review the conviction report and all candidate supplied information.

f. The HRARC makes an individualized assessment of the conviction history and the job responsibilities in order to determine if the criminal conviction poses a level of risk that might preclude clearing the candidate for employment in the position as noted in the Conviction History Review section.

g. The HRARC makes a recommendation regarding each candidate’s eligibility for employment for the specific position under review.

i. HRARC recommendations for faculty and specialized faculty candidates are provided to the Provost. After consulting with the relevant Dean regarding the impact of conviction history on the hiring decision, the Provost will make the decision on whether the candidate has cleared the background check.

ii. HRARC recommendations for all other employment categories are provided to the Associate Provost for Human Resources or her/his designee for final decision of employment eligibility. The Associate Provost for Human Resources will consult with appropriate University officials as needed.
h. Illinois Human Resources informs the hiring unit of the final determination regarding the candidate’s criminal background check.

i. If the determination is the candidate is eligible to be hired for the position, Illinois Human Resources contacts the unit, authorizing continuation of the hiring process. This notification does not reveal any indication of a criminal conviction history. Criminal background check documentation will not be stored in an employee’s personnel file. Illinois HR also notifies the candidate of the successful completion of the criminal background check process.

ii. If the determination is the candidate is ineligible to be hired for the position, Illinois Human Resources contacts the hiring unit, indicating the contingent offer is no longer valid, authorizing resumption of the search process. Illinois Human Resources does not share the conviction history report with the unit. Illinois Human Resources then contacts the candidate, informing her/him the contingent offer is no longer valid, based on the candidate’s inability to fulfill the contingency of successfully completing the background check process.

i. Illinois Human resources retains all conviction history information in a confidential and secure manner, separate from personnel files. Records are kept in accordance with the Illinois Record Retention Act.
